BARRENNESS DESTROYED VIA KINGDOM ADVANCEMENT PRAYERS:

We got married on May 10, 2014, and since then we have believed God for the fruit of the womb. After a fibroid operation procedure, I had earlier last year; instead of the situation improving it became worse. The pain increased, my menstrual cycle reduced, and it seemed it was impossible to conceive. At a point, we were considering IVF (In-vitro Fertilization) which we were not sure was our solution. I had a series of infections which kept reoccurring. That prompted me to give up on the doctors. Despite the situation, I and my husband's feet stood strong on the solid rock of God's Word. We said we would rather remain childless than visit any strange place.

We keyed into all the prophetic words on this altar, bought our children's items according to Mama's (Mrs. Oyedepo) instruction. We engaged in all the Outreaches. When the 2017 21-day prayer and fast began, I was praying for my needs, but Papa (Bishop Oyedepo) emphasized the need to keep praying for the Kingdom. My husband and I started praying fervently and passionately for the Kingdom. As well as , taking a shot of the oil every night. During the second one night with the King, my husband told me to take the pregnancy test, and I did. Lo and behold for the first time in three years the test was positive! We also went to a lab to confirm, and it was positive, and I was confirmed pregnant. I have come to return all the glory to God Almighty.

Comfort A.
