

DIVINE PROTECTION TESTIMONY  
The Winners' Call  
2/2017

Hello Hazelle,

I would like to briefly share my testimony on how "My Case is Different."

The week I really got serious about getting up earlier and praying the intercessory prayers from the guidelines was the week I realized my case was different.

I had been praying like I would normally do every day but there was no power behind the prayers until I decided that I was going to give the intercessory prayers a chance and I did just that starting that previous Sunday. Every morning I would wake up an hour earlier and pray the intercessory prayers. I began to realize the new found energy and experience peace in areas of my life where I was ALWAYS uneasy.

This particular day, Saturday January 28, my friend and I were hit by a drunk driver while in her car. The impact with which he hit us, the car should have flipped and we thought the car was going to because of the way it moved. Not only did the car NOT flip she and I walked away injury free, not a SCRATCH. I began to replay the entire accident in my mind and realized earlier I'd prayed the prayer of thanksgiving prayer #1 thanking God for divine protection and that is just what he'd granted us divine protection. I now know how powerful the intercessory prayers are and cannot go back to the way I use to be with not taking the intercessory prayers serious.
